

## MATERIAL SEARCH FOR ALTERNATE MFG. PART NUMBERS

The Local Part Number field that was populated by some counties in Legacy transaction IVLD has been converted into SAP. These alternate manufacturer numbers were listed from each count and duplicates were eliminated. The numbers now reside as a searchable number in SAP referred to as mfg. part number under an MPN material. This is not to be confused with the mfg. part number that is under a Material (DOT) Number. These alternate numbers only exist in Material Groups 180 and 181.

Please note the following example:

180021031	SAP Material (DOT) Number
KEL 3243	Mfg. Number for the 180021031
Description:	BRAKE DRUM, FRT INT 77 15 X 3.5(122120)

These are the alternate numbers available:

MPN032513	1 <sup>st</sup> SAP-assigned MPN material
122120	Mfg. number for the MPN032513
MPN032514	2 <sup>nd</sup> SAP-assigned MPN material
64413	Mfg. number for the MPN032514
MPN032515	3 <sup>rd</sup> SAP-assigned MPN material
821-9074	Mfg. number for the MPN032515

How to search for the alternate numbers:

Transaction MM03

Click on the Material match code on the first screen

Select the "Search Help for Manufacturer Part Number" tab

Use one of the following fields to search for the alternate number:

Material description – enter all or a portion (asterisk is wild card)

(i.e., \*Brake Drum\*)

Int. material number – enter the SAP Material (DOT) number

(i.e., 180021031)

Mfg. part number – enter an alternate number

(i.e., (122120))

Click the Green check and information will be displayed
