

Hp Inkjet Printers Recommendations

These printers are capable of printing HGPL-2 plotter language that is required for printing maps in the DOS-based version of TIMS. The TIMSNT version does NOT require the HGPL-2 language and virtually ANY inkjet or laserjet printer can print maps from that system. Please take into account, though, that the home style printers, while much less costly, may have serious drawbacks in the amount of printing and abuse that they are able to withstand the speed of printing and most use the color cartridges that contain all colors in one cartridge. One color runs out and you must replace the entire cartridge at around \$35-40 each. These machines are a more industrial strength and cost more for that reason regardless of the TIMS system that you are using.

Letter/Legal Size:

Can use Jet Direct Cards, Parallel connection (it can be connected to jet direct print server), PCL5 (has ability to print HGPL-2), uses separate cartridges for each color.

| Part # | Description | Reg. | State Contract |
|------------|--|---------|----------------|
| C2691A#ABA | HP Business Inkjet 2250 Only one tray (second-optional), JetDirect card (Optional), USB optional | \$ 825 | \$ 651.75 |
| C2699A#ABA | HP Business Inkjet 2250TN TN = Two Trays, Network ready (JetDirect Card built in), USB | \$ 1179 | \$ 907.83 |

Up to Tabloid Size:

Both machines have Two Trays, can use Jet Direct Cards, Parallel connection (it can be connected to jet direct print server), USB connection, PCL5 (has ability to print HGPL-2), uses separate cartridges for each color.

| Part # | Description | Reg. | State Contract |
|------------|--|---------|----------------|
| C8109A#ABA | HP Business Inkjet 2600 Two Trays, JetDirect card (Optional), Cannot print double sided (Optional) | \$ 1179 | \$ 907.83 |
| C8110A#ABA | HP Business Inkjet 2600DN (DN = Double Sided Printing, Network ready (JetDirect Card built in) | \$ 1651 | \$ 1271.27 |

Additional Memory:

The following memory prices were supplied by:

Datanet/Pomeroy Computer Resources (Raleigh)
Dawn Richardson (drichardson@datanetinc.com)
Ph – 919 954-0770 x280 Fax – 919 861-7856

You may contact any of the other vendors in the state Purchase and Contract listing for comparable pricing for the printers and additional memory. Note that the generic memory price is about 1/3rd of the HP memory price.

2250 series

Comes with 24 mb ram std. and you can add an additional 64 mb ram generic memory.

| Part # | Description | State Contract |
|----------|-------------|----------------|
| F1457B-D | 64 mb ram | \$ 35 |

2600 series

Comes with 48 mb ram std. and you can add an additional 128 mb. either HP memory or generic memory.

| Part # | Description | State Contract |
|----------|----------------------|----------------|
| C2388A | 128 mb ram (HP) | \$ 292 |
| C2388A-D | 128 mb ram (Generic) | \$ 85 |
